

GET FOUR STILL CLOSE TO RODMAN; WOMAN ARRESTED

Find 75 Gallons Mash,
But Operators Were
Minus

Four stills of medium capacity have been brought to the county jail by Deputies Cannon, Minton and Brown, of the sheriff's office, and Inez Jackson, colored, came with the officials at their request, and was given quarters in the jail.

The stills were discovered in apparently unoccupied buildings near Rodman, but were not being run when the officers made the raid. Seventy-five gallons of mash which was also found in the buildings were destroyed by the deputies, and there was a general demolition of other accessories before they returned to Palatka.

There were no arrests made other than that of the woman, from whom the officers expect to secure information that will lead to the arrest of the owners of the captured "working capital."

Four Persons Are Burned to Death in a Hotel Fire

(By Associated Press)
Amory, Miss., Nov. 13.—Four persons were burned to death in a fire which destroyed the "T. P. A." hotel here early today.

One man was seriously injured when he jumped from the second floor. The fire is believed to have been caused by the explosion of an oil stove at the foot of the stairway.

SLAYING IN ST. AUGUSTINE

Merely Drummings From The Thought Tank By THORN

More Pickle Material.

William Dill, of Spokane, Wash., who was elected last Tuesday by the democrats as senator, will be the youngest man to hold such a position. He is no relation, it is said, of the man who invented the celebrated dill pickle, but the pickle part will no doubt reach him after he has been sworn into office. You see, he is a bachelor, and what those Washington grass widows will do to him will be a plenty.

Several Kinds of Floaters.

I have recently noticed that the king of kokokola, Hizzonner Asa G. Candler, has gone to San Francisco to inspect an army transport. His son has purchased from the grand old U. S. A. The younger Candler proposes to soon establish upon his new acquisition a floating school for boys. It is possible young Asa was imbued with the idea by seeing the great success his dad achieved, day by day, in manipulating and conducting his floating school for widows down in N' Orleans!

Yassum.

I thank you.

Sounds Like a Blowout.

A recent issue of The Arcadia Enterprise tells a story of Mr. and Mrs. Adolph Heyn, who were touring from New York to Fort Myers. They were traveling in a really-truly house mounted on a one-ton truck, and when they reached Arcadia were in fine fettle. The Enterprise in writing a nice little story about the visitors and the progress they had made concluded the tale in a way that could only be understood by an anatomist or someone who "knew a good figger when he saw it." The finish of the tale read thus:

"The party met with two accidents on the way, once near Richmond, they were crowded off the road into a three-foot ditch camouflaged with blackberry vines, but suffered no serious damage; another time further south, a friend, traveling in a car behind, became interest-

ed in watching a duck in a roadside pond and ran into Mr. Heyn's rear end, breaking off his back step." The New York friends of Mr. Heyn will doubtless hear of his misfortune with great regret.

Variety in th' Sameness.

Same old circus.
Same old show.
That pleased you in
The long ago.
Same old peanuts,
Same "lemo."
Same old cry of
"Here we go!"
Same old brass band,
Same old drum.
Same slide trombone,
"Ta-ra-ra-rum!"
Same old grease-paint,
You have seen
Makes some grandmas
Look sixteen.
Same old horses,
Same trick mule.
Same green gawk.
T' ride th' fool.
Same cute monkeys.
At their play.
Funny how they
Get that way.
Same old concert.
At the close.
Take more money.
Goodness knows.
Same old gags told.
In your youth.
Take you back; aint
It the truth?
Same old street crowd.
View parade.
"Stand still, Willie.
"Don't be 'fraid!"
Same old, same old.
Same old stuff.
Will we never
Get enough?

Wheat Crop Short, But Canada Has Immense Yields

(By Associated Press)
Ottawa, Ont., Nov. 13.—If Canada's wheat crop of 343,000,000 bushels were ground into flour and made into bread there would be enough to supply every man, woman and child in the United States with a loaf weighing twenty-four ounces a day for four months, or a similar ratio to the entire population of England for a whole year, according to a computation based upon figures given out by the Canadian department of agriculture.

It would take 257,250 grain cars with a capacity of 40 tons each to move the crop and, placed end to end, these cars would make a train of wheat 1,946 miles long, or one extending from Montreal to a point 20 miles west of Swift Current, Sask., or from New York to Denver.

The value of Canada's field crops for 1922 is estimated at \$1,119,273,583. Of this total the wheat crop accounts for \$569,334,350. The oat crop this year is valued at \$234,510,360, an increase of nearly \$100,000,000 over the value of the 1921 crop.

Season Tickets Now Selling for First County Fair

With the intention of placing several hundred season tickets for the coming county fair Boris D. Lamon took over the handling of the proposition this morning. These tickets give admission to the grounds at any and all times during the exposition, and the advanced sale will indicate the interest taken in what promises to be splendid propaganda for the county.

"It seems to me that everyone should buy these tickets without the least hesitation," says Mr. Lamon. "The early purchase will be a great help to the association, and as everyone is bound to attend the fair more or less the early buying will save all confusion at a later moment. The cost will be small, but I expect from the number that will be taken the sum received will reach a considerable total."

tial law alone can make Constantinople safe.

Allies Must Agree First.
Complete agreement among the allies and a display of unity in the future of granting full authority to their commanders in Constantinople to co-operate in any emergency to remove anxiety, it is contended, is essential to the success of the campaign with the Turks at Lausanne. Without such complete co-operation it is argued the conference had better not be held.

Commentators in London generally insist strongly upon the necessity for the allied representatives to meet before talking to the Turks at Lausanne in order to decide a common policy. Unless this is done observers feel it will be impossible for Great Britain to be represented at Lausanne at all.

WOMAN COULD NOT WORK

Made Strong and Well by
Lydia E. Pinkham's Vegetable Compound

St. Paul, Minn.—"I took Lydia E. Pinkham's Vegetable Compound for my nervous system, and it did me a world of good. I used to get a pain in my head and pains in my lower parts and I was not able to do my work. I read in your little book about Lydia E. Pinkham's Vegetable Compound and I have taken it and feel so well and strong and can do every bit of my work and not a pain in my back now. I recommend your medicine and you can see this letter as a testimonial."—Mrs. PHIL. MASER, 801 Winslow St., St. Paul, Minn.

Just another case where a woman found relief by taking Lydia E. Pinkham's Vegetable Compound. Sometimes these tired, worn-out feelings and pains about the body are from trouble only women have. The Vegetable Compound is especially adapted for just this condition. The good results are noted the disagreeable symptoms pass away—one after another.

Lydia E. Pinkham's Vegetable Compound is a Woman's Medicine for Women's Ailments. Always reliable.
